UN75 - 2020 and Beyond.

"The UN is marking its 75th anniversary at a time of great disruption for the world, compounded by an unprecedented global health crisis with severe economic and social impacts. Will we emerge stronger and better equipped to work together? Or will distrust and isolation grow further? 2020 must be a year of dialogue, when we come together to discuss our priorities as a human family, and how we can build a better future for all."

- United Nations Peacekeeping, 2020
